WORK BEGINS
ON NORTH ARM.Dredging of the Lake
to Be Rushed to
Completion.

At last the actual work of dredging Lake Merritt and filling the marsh land has been commenced. Pending the completion of the retaining wall across the marsh land at the northwest arm the dredger did a little preliminary filling in front of the Newton place on the northeast shore. Yesterday the machine was moved to the northwest arm and active operations were commenced there.

The embankment recently constructed across the arm of the lake by John Adams has been selected as the south boundary of the strip to be filled. A center creek runs through this portion of the marsh and it will be kept open to allow the water to run off. Wire ditches will be constructed to keep the mud from flowing back into the lake. The dredger will be kept at work dumping mud behind this bulkhead until the retaining wall at the Birch street bridge and along the canal will have been completed when the pipes will be shifted and the refuse used to fill in that place of land recently donated to the city for park purposes.

Although the preliminary work has been progressing very slowly and some interested persons expressed fears that the work would not be completed within the prescribed time, the contractors say that all is plain sailing now and they are prepared to rush the work through.

Under the law he must serve one year, and can be compelled to serve more than ten years.

There were five counts in the indictment against Tolle. The first charged him with absconding with \$2000 of the funds of the loan association. The four other counts were dismissed.

ASK YOUR GROCERNICKELS PUT IN
THE "KALAMAZOO"Saloon Men With the
Machine Fined a
Snug Sum.

The Chief of Police has inaugurated a war against Kalamazoo nickel-in-the-slot machines in which playing for money is done. The owners of five saloons in which machines into which nickels had been played are located were arrested yesterday by Sergeant Green and Officer McKinley, and the machines were taken in the patrol wagon to the police station. The arrest was made on the strength of the evidence which the officers furnished for themselves. They entered saloons and dropped a nickel in the slot of the machines they found there and then worked the lever. That was all the proof they wanted that the machine was a gambling device and that into it money could be played. In some instances, without seeking it, the officers got more evidence, because the unending of the machine disarranged the internal mechanism and allowed nickels in liberal quantities to drop into the cup. These nickels were held as evidence. The nickels played by the officers were marked so that they could be recognized on the opening of the machines.

The saloon men arrested were C. H. Kucks, Anton Christensen, Casper Werner, Austin O'Brien and D. McCarthy.

They appeared in the Police Court this morning, charged with keeping. Each caused to forfeit \$30 to satisfy the law. Kucks put up his money and the machine was returned to him. The others will comply with the agreement later.

Chief Fletcher insists that only chips may be used in the machines, and that they may be exchanged at the bar in trade only.

LON AGNEW WILL

At the next meeting of the Board of Police and Fire Commissioners, Lou Agnew will be appointed to the position on the force and then he will be assigned to duty as clerk of the department.

A Blizzard in Missouri.

Associated Press Dispatches by The Tribune's Special Leased Wire. ST. JOSEPH, Mo., Jan. 28.—A blizzard is raging all over northwest Missouri to-day. A fine snow began to fall at 9 o'clock and the wind has attained fearful velocity. Telegraph and telephone communication with neighboring towns is seriously interfered with, and railroad and street railways are operated with difficulty. At 8 o'clock the temperature was 40 degrees. At noon it was 28 degrees and fast falling.

AN ARTIST'S
WORK IS
NOW ENDED
J. H. E. Partington
Dies Suddenly
at Home.

John H. E. Partington, the well-known artist of East Oakland, and founder of the Partington School of Illustration, died suddenly this morning at his home on the corner of Third avenue and East Twelfth street. For several weeks he had been ailing, and was under the care of Dr. A. Fine. His condition was not considered serious, however, until this week.

About 5 o'clock this morning the family was aroused by a noise in his room. When the door was opened he was found lying partly dressed upon the floor.

Dr. Fine was summoned at once but arrived too late as death had summoned the artist.

Deceased was a native of Manchester, England, and 54 years of age. He came to this country nine years ago and soon after established the Partington School of Illustration in San Francisco. He was a member of Hopkins Art Institute and was considered one of the greatest portrait painters in the country.

Before leaving England he was reputed to be the best portrait painter in the north of the country. He received the gold medal at the Mid-Winter Fair for a portrait of Ambrose Bierce. Among those whose portraits he has done are E. L. G. Steele, Judge McKinstry, Joaquin Miller and Sigmond Beal.

Deceased leaves a family of seven children besides his widow. The children are Blanche, Robert, Mrs. Fred Peterson, Gertrude, Edward, Howard, Phyllis and John Allen Partington. The funeral will take place from his late home Monday afternoon at 2 o'clock and will be strictly private.

CORTES WILL
SOON CONVE.

Associated Press Dispatches by The Tribune's Special Leased Wire. MADRID, Jan. 28.—The reopening of the Cortes is fixed for February 20th. The Government will introduce a bill providing for the payment of indemnity to Spaniards who have suffered through the action of the Philippines to the United States. The members of the opposition propose to raise a debate on the wars in Cuba and the Philippines. It is believed the session will be short. Premier Sagasta will then submit the Queen Regent a question of confidence in the Government.

The official Gazette announces that the Spanish troops in the Philippines who are to be repatriated at the expense of Spain only number 2,000. The remainder, it is added, will be repatriated at the expense of the United States.

With this project in view a large plot of ground has been secured, where the building of works necessary for the housing of cars and machinery for the electric supply are being rapidly constructed. The building ground has also been made for the cabmen. This is laid with every possible form of paving, wood, asphalt, stone, etc., including two steep hills. Here and there are dotted about dummy figures, and in and out of these the cabmen have to maneuver under the orders of an instructor. As a rule in four lessons the driver is ready to navigate Paris, and after ten lessons is considered thoroughly competent.

Each cab is supplied with sufficient power to be driven thirty miles, at about eight miles an hour. Among the system of auto-motors in Paris there are many using petroleum, which called forth a most pronounced objection from the public by reason, first, of the odor following their passage; second, no noise, the annoyance to passengers and the extraordinary vibration. A consumption of great value would be a machine which would combine durability, speed and economy without these annoyances.

COURT OF CASSATION
WILL BE CHANGED.

Associated Press Dispatches by The Tribune's Special Leased Wire. PARIS, Jan. 28.—A semi-official note issued this afternoon says that an extraordinary meeting of the Cabinet has decided that the Minister of Justice, M. Lebert, shall submit to the Chamber of Deputies on Monday next a bill providing that cases of trial revisions are to be brought before the united sections of the Court of Cassation whenever the criminal section shall have pronounced upon the advisability of a previous judgment, and shall proceed with a preliminary inquiry conducted by a delegation consisting of more than one-third of all the members of the court.

In the preamble of the bill reciting the conclusions of M. Massieu, the first president of the Court of Cassation, on the charges brought by M. Quesne de Beaupre, the president of the civil section of that court at the time of his resignation, will say:

"From the fact adduced by M. Massieu, it would illikewise to entrust the judgment of the Dreyfus affair to the criminal section alone."

Seventy-five per cent of the crop of the coast must be pledged. A temporary Board of Directors was named as follows:

D. M. Delmas, L. F. Graham, W. P. Cragin, Paul O. Hersey, S. R. Johnson, C. W. Childs, James E. Russell, E. A. Hayes and F. W. Crandall. These are local men. GLUCOSE AND SUGAR
INTERESTS COMBINE.

Associated Press Dispatches by The Tribune's Special Leased Wire. NEW YORK, Jan. 28.—Levy Mayer of Chicago, who, according to a dispatch from Peoria, Ill., is in this city to conduct negotiations for a combine between the glucose and American Sugar Refining interests today, said to-day: "I must absolutely refuse to discuss the matter. I have nothing to say regarding this dispatch. Mr. Mayer has been in this city frequently during the past two weeks, and has been associated with several of the recent large combinations of industrial and other capital. He was connected with the organization of the glucose combination, and it has been rumored frequently during the past week that his presence in this city was partly due to the much talked of sugar-glucose combine."

CUBANS CLAMOR
FOR GOLD COIN.

Associated Press Dispatches by The Tribune's Special Leased Wire. NEW YORK, Jan. 28.—A dispatch to the Tribune says: "The Ayuntamiento, or Council, has received messages from Cardenas and other towns asking its co-operation in a movement to secure the payment of the insurgent troops. General Ludlow was also memorialized in favor of payment, and was asked to make representations to Washington. General Brooke's Cuban Cabinet is likewise subject to pressure to secure some definite action on this question before entering upon its administration."

Northern Pacific Wins
An Important Land
Suit.

ST. PAUL, Minn., Jan. 28.—Judge Lochren of the United States Court to-day filed a decision involving the right of the Northern Pacific Railroad to about 1,000,000 acres of land in Northern Minnesota and Wisconsin, the company securing title to that much land. The contest was over an eastern terminus of the railway, the United States holding that it was at Duluth, while the company insisted that it was at Ashland. The Government applied to have the land which had been patented to the road restored to the public domain, canceling this patent, issued four years ago. The case decided was for a small tract of land, but the point decided involves over 1,000,000 acres, which now goes to the railroad until opposed.

The Secretary of the Interior directed that Duluth was the eastern terminus of the road, but the company contended this ruling. Judge Lochren decided in favor of the company.

TELEGRAPHING
IN THE ANTILLES

Associated Press Dispatches by The Tribune's Special Leased Wire. WASHINGTON, Jan. 28.—The signal office of the War Department has issued circular No. 1, in regard to military telegraph offices now in operation by the Signal Corps in Porto Rico and Cuba.

These offices transact government business free of charge. Commercial business is handled at a uniform local rate of 2 cents a word, address and signature included, but a message of less than ten words is rated and charged as a ten-word message. Messages from the United States are generally received as follows:

For the provinces of Havana, Matanzas, Pinar Del Rio, and Santa Clara via Havana; for the provinces of Santiago, through Santiago, either via Havana and through Cuban sub-marine cables or via New York and the French Telegraph Company cable.

All telegraphic offices in Porto Rico are connected with both Ponce and San Juan de Porto Rico. These direct lines are reached either via Havana or New York.

The system as now in operation in Cuba is principally located in the western and eastern portions of the island, the central provinces being less thickly covered. Many additional lines are now in course of construction.

The Signal Bureau has not stopped, however, because it was not convenient to connect points by wire from the island of Vieques, on the south end of Porto Rico, which is placed in communication with the larger islands by heliograph. Stations to flash the sun signals have been established, under the direction of Colonel Glasford, on both islands. Heliograph messages have to pay 2 cents a word additional.

Associated Press Dispatches by The Tribune's Special Leased Wire. NEW YORK, Jan. 28.—A dispatch to the Herald from Manila says: There is no illness on the transports at Iloilo. The fifty-first Iowa regiment is returning to Manila on the Pennsylvania, and will arrive tomorrow.

A native commission from there comes on the transport to consult with Aguinaldo.

Infernal natives wish the Americans to land. The rabble insurgents are looting and want to loot the town. They have already burned several villages near Iloilo. Cutting Prices on Glassware.

Associated Press Dispatches by The Tribune's Special Leased Wire. The price cutting is attributed to the failure to form a combine a few weeks ago.

WHY PUNCH IS A DESTROYER.

SOCIETY AND THE MINISTERS.

Pastors Find a Moral in the Case of the Society Belle Who Got Topsy at a Cotillion in This City Recently.

Declaration Made That Young People Should Not Be Tempted at the Homes of Their Friends in Oakland.

Some of the Local Ministers Declare That the Devil Lurks Around the Enticing Punch Bowl of Society.

Suggestions Are Made to Members of the Four Hundred in Regard to the Serving of Liquid Refreshments.

The ministers have spoken. With a grace and readiness which the Tribune and its lay readers cannot fail to appreciate, they have consented to vouchsafe their opinions about punch. These opinions will be found not less pertinent and edifying than any of those which the Tribune has obtained by its letters upon all classes of society.

The punch bowl has been hauled into court by the action and wishes of that segment of Oakland society whom it most affects and who are by common repute understood to be on terms of the greatest intimacy with it. In obedience to the mandates of society itself, the Tribune has opened its columns to a symposium on the society punch bowl.

No modern discussion of public and social questions, no symposium, could be complete without the genial and illuminating presence of the modern minister. Oakland ministers are not only not too good for human nature's daily food, but they take a hand in everything that is going on from Sacramento politics on. This punch bowl debate could not have been properly closed without their having a little to say in it.

The Tribune thanks them, therefore, for their courtesy in responding, and gladly and respectfully presents their utterances.

In comparing the voice of the ministers with the other contributions that have been made to this theme, one or two things will be noted. In the first place, it will be a matter of remark and of surprise to some how much more Oakland ministers know about the contents of the society punch bowl than the young men of Oakland society.

Not one of our clerical contributors professes that the punch bowl is a matter of supreme indifference to him. All of them, at least implicitly, admit that they are on speaking terms with it. They do not pass the subject by on the other side with a stony glare, as so many of our most stylish and lively young men have done.

The punch bowl is an institution which the American minister, if there be anything in lineage or heredity, knows how to treat. It is not many theological generations ago when the punch bowl bore the post of honor on the board and sideboard at every ministerial convocation. It disputed and maintained a pre-eminence against Aunt Sally's jams and cranberries and pumpkin pies. Its contents, in those days, were never ambiguous. Whether it was a case of schnapps or old Holland among the Knickerbockers, of apple jack in New Jersey, of peach brandy in the Chesapeake, of hog track corn juice further South, or of prime Medford rum in New England, the proportions for the ministers' meetings were always stiff and fiery, as became the theology of those men and times.

Whether or no it may be that the punch bowl of that day is, though lost to sight, to memory dear, or whether there lingers about this now disused and shelved piece of ministerial crockery, like the roses of Bendor's stream, a transcendental aroma, our readers, certainly, will thank the ministers of Oakland for the zeal that they have lent to this symposium upon the punch bowl.

REV. DILLE MAKES SOME SUGGESTIONS. DR. RITCHIE IS LIBERAL IN HIS VIEWS.

REV. DR. E. R. DILLE, First Methodist Church—It goes without saying that I do not believe in the punch bowl. I do not believe in the use of liquor in any form or on any occasion. Society has the controlling voice in this matter. It makes the custom and it is to blame for a great many of our young people acquiring a taste for intoxicants. The heads of families are particularly to blame in allowing their children to partake of such beverages. A grave responsibility rests upon them. It is in the homes that many a craving has been started which ended in making a drunkard. The fate of the El Nido Club is an instance of what the punch bowl will do. It was the drink and gambling in this club which caused it to go to pieces. I believe the tendency is toward the elimination of the punch bowl. The movement seems to have taken hold in the Eastern cities. The leaders of society ought to feel the responsibility that rests upon them and set the pace. They should decree that all intoxicants are not in good form. The church also should bring all the moral influence it can to bear upon the matter. The members of the church should express themselves forcibly on the subject. I am glad the Tribune has taken the matter up and I think it will do a great deal of good.

REV. DR. ROBERT RITCHIE, St. Paul's Episcopal Church—I cannot say that I think the punch bowl should be abolished. I think that matter should be left in the hands of society people of this city and the same in any other city. Those in society who regulate such things are maroons who should know what they are doing. The matter should be left to their discretion. Of course, it is a great mistake to give intoxicants to little children except in case of sickness. It is just as great a mistake to give them liquor as it would be to give them tea or coffee. All the punch that I have seen at society functions has been so weak that no serious damage has resulted. Society should have entire control in the matter. The church does not believe in establishing a police surveillance over the members of society. The individuals are to blame if they partake of the beverage too freely. The church believes in teaching the broad gospel truths and leaves it to the individuals for application. I would not more think of telling the members of the church how they should act in this matter than I would think of telling them how they should cast their ballot. If I did it would not be welcome to the Episcopal Church.

DR. COYLE SAYS SOCIETY SHOULD ACT. DR. WALLACE ON DEMORALIZING EFFECT.

REV. DR. ROBERT F. COYLE, First Presbyterian Church—It is not necessary to ask my opinion concerning the punch bowl. It certainly should be abolished. Our young people have enough temptations to contend with without having that added. They should not be confronted with such things either in their own home nor away from home. Society should frown down such a practice. I think those who serve the drink are more to blame than those who are served. The older persons should not throw temptation in the way of the young. They should have better sense. I am a believer in total abstinence. There is no necessity for alcoholic stimulants whatsoever. There is a defect in the moral home training of those who indulge in intoxicants. I hope the agitation against the punch bowl will be continued until it is abolished.

REV. MACH H. WALLACE, Market Street Congregational Church—I am opposed to intoxicating drinks of any kind. The punch bowl in society only encourages people to drink. A taste is acquired at these affairs which might not be acquired at any other place. The church is decidedly against the practice. There will be no punch bowl found among strict church members. I cannot see any good in having the bowl at society affairs, and I can see a great deal of harm in it. It is an absurd idea that people in what is called society may do what would not be tolerated elsewhere. It is entirely an erroneous idea, and has a demoralizing effect upon the growing generation.

DR. KNODELL SAYS SOCIETY IS TO BLAME. DR. HERRIOTT QUOTES FROM ST. PAUL.

REV. J. R. KNODELL, Pilgrim Congregational Church—There can be no question about the matter. Alcohol should be kept out of all decent society, not to say Christian society. It is outrageous for people to give an excuse that society demands it. It is the thinnest kind of excuse. Society is what we make it. Every individual is responsible for his own actions. I am not interested in society except when it uncovers itself. What happened to the young lady who has given rise to this agitation may happen to others. I doubt if it would do much good for the churches to take an aggressive stand. It is the place of every good man and woman to denounce the custom. I think the individuals in what is called society should be ashamed of themselves for tolerating such a practice. It is in the homes of such people that the foundation of the ruin of so many young people is laid. If people realized the full consequences following their actions, I do not think that they would allow the punch bowl at their functions.

REV. C. C. HERRIOTT, Evangelist—Of course, I am opposed to the punch bowl in society or anywhere else. Any one who has a particle of sense can readily see the harm resulting from its existence. No man who professes to be a Christian would ever indulge in any such practice, because thereby he becomes a stumbling block and an offense in the way of some weak brother for whom Christ died. Of course, I speak of this in relation to Christianity, for as far as the man of the world is concerned I have nothing to do beyond general principles. But a man who has any love for his fellow man will not do anything which will do any injury to him. I would exhort the people to St. Paul's example when he says: "It is good neither to eat flesh nor to drink wine or anything whereby thy brother stumbleth or is made sick." Happy is the man that condemneth not himself in the thing which he alloweth.

SECRETARY JACKS IS OPPOSED TO PUNCH. DR. HILL REFERS TO THE DAMNING CUP.

NOEL H. JACKS, General Secretary Y. M. C. A.—There is very little for me to say upon this subject. I have no use for liquor of any kind, no matter if it is served in the fashionable punch bowl or in a whisky glass, that is, where young people are concerned. It is, of course, a great evil, and I trust the time will come when our society people will find it convenient to abolish the punch bowl at all social functions.

REV. C. M. HILL, Tenth Avenue Baptist—I am sorry that there is any ground whatever for the reports which have led to the "punch bowl" agitation. Of course, I know nothing of the facts. Enough seems to be granted to make a bad case against certain society customs. Of course I condemn the punch bowl when it has anything intoxicating in it. Society ought to adopt only such customs as would develop in its young women pure and sweet womanhood, and in its young men moral manhood. The punch bowl is a wicked and debasing temptation. I wish those ladies who want to banish it from social gatherings of young people complete success, and when they have done that, let them go on to banish it from gatherings of the older people as well. It is a good time to remind people that the saloon is the chief menace to our civilization. The drinking customs of polite society recruit the long lines of California young men who drink over the bar. California has only a dark future if her young men and young women are to be devoted to the damning cup.

REV. NEEDHAM ON THE PHILOSOPHERS. DR. HILL REFERS TO THE DAMNING CUP.

REV. A. T. NEEDHAM, Eighth Avenue M. E. Church—In reading the opinions expressed concerning the punch bowl and the dance in the Tribune of yesterday, I have been amused at the allusions made to the "opinions of the philosophers" concerning these customs, which obtain among certain sections of modern society. I am reminded that Cicero, who was considered as much a philosopher as he was an orator, is represented as saying: "No man thinks of dancing except he is drunk or insane," and that an ancient writer also remarked that "Of all the great men who contributed to the overthrow of the Roman Republic, Caesar was the only sober man."

Such are the opinions of some of the philosophers and as these differ so widely from that of others quoted, we must make up our own mind by weighing their comparative value or construct our opinion from the data accessible to us in this day. Every observant mind has noted the effects of the dance, and of the punch bowl, and the results have certainly not been such as to commend them to our favor. That mix-

ture ordinarily called punch, that has an intoxicating quality, is it, however small it may be, should be shunned by all, both young and old. It is true the immediate effects of the intoxicating principle are not in all cases the same. Some are more susceptible to intoxication than others. It is said alcohol has a strong affinity for the brain, and hence where there is but little brain, the effect will not be so marked. The better quality of brain has a wholesome dread of the intoxicating effect, but by indulgence even such persons may be overmastered to their ruin. Some dread to express their opinions lest they be considered as dictating, but opinions that are the result of profound convictions should be permitted expression without being branded as dictatorial, and strong affirmations founded on actual facts should be allowed clear statement without being classed as dogmatic.

DR. MYNARD SAYS TO TAKE WARNING.

REV. F. J. MYNARD, St. John's Episcopal Church—It seems to me every citizen should have and express an opinion on the punch bowl question. It is very significant that it is before our community now, simply because it has already done harm. I do not believe that society can afford to continue a practice which endangers the welfare of every one of its members. And its aim should be not only the protection, but the strengthening of its members and this it can best do by eliminating as far as possible all temptation. If reports are true the punch bowl has already humiliated one or more in our midst and may have laid the foundation for habitual, unrestrained drinking in these and others. It is awful to contemplate, and society will do well to take warning and abolish the punch bowl.

RABBI FRIEDLANDER GIVES HIS VIEWS.

RABBI FRIEDLANDER—Every young lady should be left to the judgment of herself and of her parents as to the strength of her punch. It should never have been discussed by the public because it savors too much of gossip and of inquisitiveness. The public press should decidedly never have taken it up.

DR. POTTER SAYS THE DEVIL FAVORS PUNCH.

REV. DWIGHT E. POTTER, Union Street Presbyterian Church—Total abstinence is safe. The abstainer is wholly on the right side of the question. He has a backbone. He will develop moral fibre in himself and inspire moral courage in others. These qualities are invaluable. Whatever weight he has is wholly against the drink evil. Enough men are half-hearted, "able to let it alone," to want men who do let it alone. The punch bowl opposes all this. It brings the saloon into the home. It bridges the chasm between the two. If this must be done let the saloon do it. It is a refined and therefore deceptive household edition of the saloon. It can do no good. It may do great harm. It is a step in the wrong direction. It is an innocent looking member of the liquor gang, but it has the family resemblance. Its kin are our sworn enemies. It is dangerous. The devil would vote for it. He can use it. It is one of his friends. He believes in it and so does the saloon keeper. That shows what it really is. Its influence is bad. Some drunkards began with it. The punch bowl is no good because it helps nobody. It is bad because it harms somebody. Its conspicuous presence has been a curse, its absence would be a blessing.

DR. ANDREWS DOWN ON DANCE AND PUNCH.

REV. W. P. ANDREWS, Asbury M. E. Church, South—Considering the well known evil effects I can only account for the justification by adult persons of the use of intoxicants in any form at social gatherings, on the ground of weakness in moral sense or mind. Yes, by all means banish the punch bowl, and with it the waltz. Either is bad enough, and the two together should not be tolerated in decent society. Some unthinking young people accuse ministers and parents of desiring to deprive them of pleasure. This is far from being true. By inducing them to avoid evil, we would direct their steps in wisdom's ways, which are "ways of pleasantness." Drunkard's graves are prisons are filled with victims of the evil complained of, to say nothing of multitudes who have not gone so far, but have been incapacitated for a successful and happy life. By this time we ought to have learned that it is useless to advise against drunkenness and other gross sins, while encouraging the steps that lead to them.

NEW OFFICERS OF CLAN MACDONALD TO GO AWAY.

A Pleasant Gathering at Installation Ceremonies.

At the hall of Clan Macdonald last night there was a very pleasant time passed on the occasion of the installation of officers for the ensuing year. The clan has been most prosperous during the past twelve months, and expects increased prosperity during the next term. The officers installed were as follows: Chief, John Loring; past chief, Robert Howland; minister, J. A. McCutcheon; James Rankin; recording secretary, James Rattray; financial secretary, John Badde; treasurer, F. M. Davidson; senior hon. member, David Brown; junior hon. member, Andrew Brown; warden, Thomas Hutton; sentinel, William Hunter; standard bearers, Henry Harrower and N. W. Leitch; pipers, Alexander and John Hill.

The installation was conducted by Royal Deputy Maxwell Crow and Past King and a few friends. Speeches were made by Deputies Crow, Macdonald, Royal Honorary Walker and the newly elected officers. There was a large number of clansmen in attendance.

BURIED AT THE COUNTY'S EXPENSE.

Yesterday afternoon the remains of Miss E. C. Rich, Temescal's eccentric old maid, were interred at the expense of the county. Public Administrator J. C. Hawes, accompanied by Officer McKinley, carried the house wherein this peculiar person lived and died. They found it in a state of filthiness that would be hard to describe. Aside from a few pieces of clothing which indicated that at one time the old maid had been well dressed, there was a few trinkets, there was nothing of value found. In a trunk was found a complete set of baby clothes, probably the ones worn by deceased in her babyhood.

First Whitman Lecture.

The first of the two lectures on "New World Ideas," as illustrated by the poems of Walt Whitman, to be delivered by the Rev. B. E. Payne, formerly pastor of the Berkeley Unitarian Church, will be given Monday evening in the lecture room of the Unitarian Church.

Of this first lecture on "Democracy," or "This Puzzle of the New World," Mr. Payne has written: "It will deal with certain broad or fundamental principles of the national life. Whitman does not carry over constructive details, but sets before us a beacon fire on the hilltop of thought, as the guides of our onward march. What I shall say, therefore, will not strike at party politics, or unduly challenge conservative policies, but deal rather with the inspirations to a noble national career."

A number of Whitman photographs, recently received from a legatee of the poet by Mayor Thomas, and kindly loaned by him, will be on view in the church parlors.

PLUMBER WAS IN DANGER

An Insane Woman Did Not Like His Actions.

Mrs. Martin Kaiser, of 572 Wilman street, who was brought to the receiving hospital yesterday on account of her mental derangement, will not be sent to an asylum at present.

Her husband will provide a private nurse for her and try to restore her reason.

He believes that she will recover if she can be kept quiet and her nervous system is improved. Mrs. Kaiser is 47 years of age and has one daughter.

She has been suffering from a nervous condition for some time, and her physician expected she would break down.

She aroused the neighborhood yesterday by chasing John Williams, a plumber, around the yard with a monkey wrench, yelling at the top of her voice.

CRAWFORD WILL NOT TAKE ACTION.

Mrs. Louis Corte of Fitchburg made a complaint yesterday to the County Superintendent of Schools that her 10-year-old boy had been severely beaten by Principal Greenman of the Lookwood school.

She brought the boy with her to exhibit the bruises upon his body. She complained that this was the second time that her boy had been beaten, and she wished an investigation.

In speaking of the matter, Superintendent Crawford said: "I am not inclined to regard the case very seriously. These complaints are very frequent and generally do not amount to much. I examined the bruises upon the boy and did not find them very bad. In my opinion the affair does not amount to much. I hardly think anything will be done about it. I can take no action unless Mrs. Corte makes complaint to the Trustees."

Deceased was a native of Massachusetts, 60 years of age, and leaves three daughters.
